Sometimes staying ahead of the innovation curve in the cloud can be challenging. How can you be sure you are keeping up and maximizing your return on investment?

---

Our operational consulting solutions can help you get the most out of your cloud investment while avoiding re-work and mitigating both short and long-term risks. To help you benchmark with turnkey tools, our Cornerstone portal optimization workshop assesses your current portal configuration and processes to provide actionable insights that improve outcomes and help you meet your overall program objectives.

## Workshop overview

Our operations experts have deep experience in both Cornerstone and the talent management discipline. During the workshop engagement, they will be looking for specific value inhibitors such as manual work, shadow work, rework, redundant processes, not enough or too much information and overall lack of adoption or usability issues. A typical engagement includes:

- Stakeholder interviews/focus group
- Data analysis
- Production portal review
  - General portal configuration
  - Settings
  - Business process configuration
  - OU (organizational units) structure
  - Security
  - Feature adoption
  - High level reporting review

## Deliverables included in the core workshop package

- Executive summary with detailed documentation on improvement opportunities
- Recommended actions and expected outcomes
- Priority and impact to drive client roadmap
- Guided discussion debriefing the findings and recommendations

**Cornerstone  
portal optimization  
workshop**

---

**Additional optional deliverables**

- Development of roadmap for adoption of recommendations
- System configuration to support recommendations
- Supplemental business process review workshop (geared towards optimizing operational processes affected through the system)

**Typical engagement**

- Outcome based pricing model
- Six to eight week duration
- Onsite for four to five days

Are you ready to maximize your Cornerstone investment? Success starts with finding the right partner. Please visit [alight.com](http://alight.com) or contact [cornerstoneondemand.solutions@alight.com](mailto:cornerstoneondemand.solutions@alight.com) to learn more.
